

Delta SP10T Optical Module

Overview

Built-in Marvell chip and reliable RJ45 port, the 10GBASE-T SFP+ module delivers low power consumption ($\leq 2.5W$) and stable copper connectivity for 10G networks, such as SMB/SOHO networks, enterprise networks, data centers, and carrier infrastructure. The Allied Telesis SP10 Series offers a wide variety of 10 Gigabit Ethernet connectivity options for data center, enterprise and service provider transport applications. EdgeOptic programs the module EEPROM to match the Allied Telesis AT-SP10T vendor profile so the transceiver is accepted by AlliedWare Plus (AWP). This Allied Telesis AT-SP10T compatible 10GBase-T SFP+ RJ45 module supports 30m over Cat6a/Cat7/Cat8 copper cable. With those. AT-SP10T-C - Transceiver Module Networking, General Purpose 10Gbps 3.3V RJ45 Pluggable, SFP+ from ATGBICS. Pricing and Availability on millions of electronic components from Digi-Key Electronics. Great prices & free shipping on orders over \$50 when you sign in or sign up for an account.

Article Content

SP10 Series Datasheet

The Allied Telesis 10G Long Reach Multimode (LRM) optic is designed to transmit and receive optical data over a legacy OM1 multi-mode fiber link up to 220m. This makes it ideal for high-speed storage

ALLIED TELESIS 10GBase-T SFP+ Module

Buy ALLIED TELESIS 10GBase-T SFP+ Module (AT-SP10T) with fast shipping and top-rated customer service. Redcorp, we love IT!
